

# Jekyll & Hyde Packet Week 3

1. One of the ways that this novella builds suspense is the progressive disclosure of information. Name three revelations that take place in chapters 5-7 and for each one, explain how they build the suspense in the story.
2. Stevenson often makes use of the literary tool of personification to bring the story to life. Find an example (one we didn't discuss in class) from chapters 5-7 of his use of personification.
3. Chapter 5 is entitled "Incident of the Letter". What happens in this chapter that led Stevenson to give it this title?
4. In Chapter 6, Dr. Lanyon refers to a terrible shock which shakes his faith in humanity and causes him to say, "I sometimes think if we knew all, we should be more glad to get away." Do you agree or disagree with his assessment of the human character, why or why not?
5. Behavioral codes (particularly in how the different classes related to each other) were extremely strong Victorian England. Cite an example where Utterson makes an issue of proper behavior even during a time of crisis. Use a quotation.
